## Getting Started

### Exam Registration

Registration for this exam is completed in [myABR](#). You will receive an email from the ABR when registration opens. Please keep your email address updated in myABR to ensure that you receive important exam-related communications.

Additional details regarding exam eligibility and registration can be found in the [Get Certified in Interventional Radiology/Diagnostic Radiology \(IR/DR\)](#) section of the website.

### Studying for the Exam

The IR/DR Remote Certifying Exam is developed by volunteers from a wide range of practice settings and reflects the breadth of information you are expected to know by the time of an exam. While we offer study guides on our website, you should decide what type of resources to use to study for our exams. If you use test preparation materials developed by other organizations or commercial entities, you should not expect an ABR exam to completely align with these materials in scope or type of questions.

For additional information, please visit the [Exam Preparation](#) section on the ABR website.

### Exam Security

Please watch [this video](#) for an overview of ABR and candidate obligations to ensure a valid and secure exam experience.

## Technical Requirements

### Computer System Requirements

The computer system requirements listed below provide a basic overview of a system that will meet the technical requirements for ABR remote exams. Prior to your exam, you will be encouraged to complete a technical verification to ensure your system meets minimum connectivity and internet browser compatibility requirements. In addition, there will be ample opportunity before each exam to gain familiarity with the software and systems through an Exam Readiness Check. The Exam Readiness Check will allow you to simulate the actual exam day experience and confirm that your computer and location setups meet your expectations. If you change your computer specifications or location after your initial Exam Readiness Check is complete, we highly recommend you complete it again with your new setup.

#### Basic computer requirements:

- Internet/Network: reliable broadband or similar internet connection
- Computer: desktop or laptop (no tablets) with Windows 10 or MacOS X 10.11 or higher
- Computer memory: minimum of 4GB RAM
- Computer drive/storage: minimum of 10GB of free disk space
- Monitor:  $\geq 13$ " and 1080p minimum
  - [Check your monitor resolution](#)
- Keyboard and mouse
- Internet browser: latest version of Google Chrome or Microsoft Edge
  - [Check your version of Google Chrome](#)
  - [Check your version of Microsoft Edge](#)
- Audio: microphone and computer speakers
- Camera: webcam with a minimum of 640 x 480 @ 10 frames per second
  - *Note: Camera will be used for exam proctoring.*
  - *Note: Use of virtual backgrounds is not permitted.*

**IMPORTANT NOTE:** You assume full responsibility for ensuring your computer setup meets the requirements for remote exams. This includes integrity of equipment, internet connectivity, system performance, side-view webcam placement, and other issues related but not limited to the above that are outside the control of the ABR. ABR staff are not able to provide technical support regarding individual setup for remote exams.

### Monitor Performance Self-Check (complete prior to exam day)

The [monitor performance self-check](#) shows imaging findings that will help determine if your laptop or desktop monitor is sufficient for ABR remote exams.

## Exam Readiness Check and Sample Questions (complete prior to exam day)

We highly recommend that you complete the Exam Readiness Check in the location and with the computer that you plan to use on exam day.

You will receive an email with an authenticated link that will allow you to access the Exam Readiness Check after you complete your exam registration in myABR.

The Exam Readiness Check provides an opportunity to familiarize yourself with the exam interface and navigation before the day of your exam. It is important that you complete it to fully understand the functionality of the exam interface, including case navigation, flagging questions, using the image manipulation tools, starting/ending a break, and question content blocking.

**IMPORTANT NOTE:** We highly recommend that you complete the Exam Readiness Check in the location and with the computer that you plan to use on exam day.

When the Exam Readiness Check is launched, a quick technical verification is initiated to ensure that your microphone, webcam, internet connection, and computer software are optimized for the exam. In addition, an identification check will be performed, as detailed [on page 8](#). You may need to download an updated version of Google Chrome or Microsoft Edge to complete this technical verification.

After you complete the Exam Readiness Check, Sample Questions will become available. The purpose of these questions is not to test your knowledge of content that will be on the exam but rather to allow you to gain a level of comfort with the variety of possible question types and with navigation of exam controls.

If you plan to take the exam at a hospital or work institution, we recommend that you contact your IT department and ask them to whitelist all sites required for the exam. The necessary information can be found on the [Remote Exams page](#).

## Location Requirements

You can take your exam in a location of your choosing, provided it meets a few basic requirements. The space selected should be sufficiently private that interruptions and the presence of other people would be unexpected or unlikely to occur during the exam. If brief or sporadic interruptions occur, they will likely be deemed inconsequential. ABR staff will view exams live and watch recordings after the exam. We will contact you either during or after the exam if we notice an issue. You may be asked to perform a scan of your workspace during the exam. ABR staff will provide instructions if this procedure is needed.

### Private and Quiet Space

- Alone, away from other people
- Free from background noise and interruptions

### Permitted

- Only one monitor
  - If you are using a desktop computer, only one monitor may be connected to it.
  - If you are using a laptop, you may connect an auxiliary monitor and use it for the exam, but you must disable your laptop monitor.
- ABR Exam Day Help Desk Flyer
- Cell phone or other mobile device
  - You should have a mobile device accessible in case you need to contact the ABR regarding a connectivity issue or we need to contact you. Under no other circumstances should a mobile device be used during the exam.
  - Your mobile device is permitted in the room as long as it is kept out of arm's reach.
  - Mobile devices may be used during breaks and intermissions.
- Whiteboard (not more than 18 inches on one side), dry erase markers, and an eraser
  - Not required but may be preferred.
  - The whiteboard must be clean at the beginning and end of each exam session.
- Beverages and snacks
- Facial tissue
- See list of [Permitted Personal Items](#)

### Not Permitted

- Other individuals in the room
- Open books, notes, and other study materials
- Camera, digital whiteboard, or other recording devices (other than your webcam and cell phone)
- Calculator (exam software includes a calculator)
- Scratch paper, pens, and pencils
- Headphones, earbuds, earplugs, and anything else that goes in or over the ear (with the exception of the allowed items listed below)

## Permitted Personal Items

Please note that you do **NOT** need to request testing accommodations for the specific items indicated below. However, if any other accommodations are needed that are **NOT** listed below, the formal [Exam Accommodations](#) request process must be followed.

### Medicine and Medical Devices

- Arm/shoulder sling
- Bandages
- Braces: neck, back, wrist, leg, or ankle
- Casts/cervical collar
- Cough drops/hard candies
- Chapstick/lip balm
- Earplugs<sup>1</sup>
- EpiPen
- Eye drops
- Eye patches
- Eyeglasses (without a case)
- Glucose monitor
- Glucose tablets
- Handheld magnifying glass (nonelectric, no case)
- Ice packs/heating pads
- Inhaler
- Medical alert bracelet
- Medical/surgical masks
- Medical rubber gloves
- Nitroglycerin tablets
- Pillow/lumbar support
- Pills
- Stool for elevating a limb
- Walking boot casts

### Medical Devices (Attached to a person's body)

- Continuous Glucose Monitor
- Heart rate monitor
- Insulin pump
- Oxygen tank
- Spinal cord stimulator
- TENS units (Transcutaneous Electrical Nerve Stimulation) for nerve pain

### Communication Aids

- Hearing aid/cochlear implant
- Vocal cord magnifiers

### Mobility Devices

- Cane
- Crutches
- Knee scooter
- Walker
- Wheelchair

<sup>1</sup> If you would like to use earplugs on exam day, please [click here](#) for options available for purchase.

## Exam Accommodations

### Accommodations for People with Disabilities

The ABR complies with the [Americans with Disabilities Act \(ADA\)](#) and makes reasonable accommodations in exam procedures for individuals with documented disabilities.

Candidates with disabilities may request modifications in the administration of an exam. The ABR will grant such requests unless modifications would place undue burden on the ABR or fundamentally alter the measurement of the knowledge and skills the exam is intended to assess.

Candidates considering the need for modifications must submit an application ([link below](#)).

All required documentation must be submitted to the ABR no more than one year and no less than six weeks in advance of the exam date. Candidates anticipating the need for accommodations are encouraged to contact the ABR office well in advance to allow sufficient time for producing any required documentation.

#### [Application for ADA Accommodations](#)

Once a candidate has been approved for exam accommodations, they will receive notification of approval with any updates necessary. Although candidates will register for exams and select start times through myABR, certain accommodations may require modification to existing exam appointments. The candidate will be notified of any changes.

### Lactating and Expectant Parent Accommodations

The ABR supports lactating and expectant parents and makes reasonable accommodations in exam procedures for individuals making a request.

Lactating and expectant parents may request modifications in the administration of an exam. Examinees should submit a request using the form provided at the [link below](#). Requests should be submitted to the ABR no less than one week in advance of the exam date. Typical accommodations include additional break time. After an accommodation request is submitted, ABR staff will follow up to inquire how we can best accommodate the examinee's specific needs during the exam event.

#### [Lactating and Expectant Parent Exam Accommodations Request](#)

## Exam Day Check-in

### Starting Your Exam Day

You will receive two email notifications with information about starting your exam.

#### 1. Five business days prior to your exam

This notification will contain a link for starting your exam on exam day. *This link is unique to each person; please do not share with other examinees.*

#### 2. Exam day

This notification will contain a link for starting your exam. *This link is unique to each person; please do not share with other examinees.*

On exam day, you may also start by logging in to [myABR](#).

### Identification Check

An identification check is performed by a third-party vendor. The first time you enter the exam software, either through the Exam Readiness Check prior to exam day or on the day of the exam, you will be required to scan your ID and take a selfie with a mobile device. Each subsequent time you enter the exam software, you will be required to take a selfie with either your computer webcam or mobile device, so we can verify that it is you. If additional identification information is required, an ABR staff member will contact you after the exam. Personal information is protected using an encrypted key code that is available only to the ABR. Identification verification will be completed in 24 hours or less, and your personal information will be permanently deleted at that time.

Identification must be from the following list and must include your signature and a recent recognizable photograph. Your name and photo must be on the same side of the ID. This ID must be current (not expired).

#### Forms of acceptable identification<sup>1</sup> are:

- Valid U.S. driver's license.
- Valid U.S. state-issued identification card.
- Valid passport or passport card.

<sup>1</sup> Military identification is not acceptable due to limitations of Title 18, US Code Part I, Chapter 33, Section 701. See more information [here](#).

## Side-view Webcam

You are required to use a side-view webcam that displays your entire testing area throughout the exam for live proctors to review. If you don't, you will have your exam event invalidated. A room and workspace scan will still be required prior to each exam session.

The side-view webcam placement allows more visibility of your workspace to ensure a sufficiently secure exam environment. Only one side-view webcam is permitted. Please review the placement details below and watch the short demonstration video on [our YouTube page](#).

### The side-view webcam placement must show a clear view of the following:

- You, your hands, and your mouse. To help with monitoring, please keep your hands visible.
- The entire surface of your workspace, including all devices and the exam screen. Only one monitor may be used during the exam.
- Dry erase whiteboard (if being used).

### Here are instructions to achieve an acceptable side-view webcam feed:

- Place the webcam:
  - at least two feet above the workspace surface.
  - four to six feet from where you are sitting.
- Use a webcam cord that is at least six feet long. An extension cord may be needed. Please [click here](#) for examples.
- Use only one keyboard and one mouse.

### ✓ Acceptable Side-View

### ⊘ Unacceptable Side-Views

Not a side view

Too close

Cannot see screen

Cannot see workspace

## Exam Day Logistics

### ABR Exam Day Help Desk

Approximately 48 hours before the exam, you will receive an email with the ABR Exam Day Help Desk phone number to be used only for contacting ABR staff for urgent issues related to your exam **on exam day**. If you have questions prior to exam day, please contact us at [information@theabr.org](mailto:information@theabr.org) or 520-790-2900.

### Schedule

This table outlines your computer-based exam day schedule, including breaks.

Number of Questions	Exam Time	Tutorial / Practice (minutes)	Total Exam Time	Break Time <sup>1</sup> (minutes)	Total Time <sup>2</sup>
178	3 hours and 13 minutes	20	3 hours and 33 minutes	20	3 hours and 53 minutes

<sup>1</sup>You may take more break time; however, your exam time will continue to count down.

<sup>2</sup>This is the total allotted time for the exam. Your total exam time may be less.

### Breaks

Breaks are provided during each exam session (see chart above). You determine how often and when to take breaks. If you exceed the provided break time, you may still take breaks, but your exam time will be affected.

Please take time to go through the [Exam Readiness Check](#) to ensure that you have a full understanding of how to start and end breaks, and how content blocking works after you return from a break.

**IMPORTANT NOTES:** You may leave the room during break, but you must keep your webcam on and maintain your remote connection. After returning from a break, you will **NOT** be allowed to change (or add) a response to exam questions that were viewed prior to starting the break. This includes all answered, unanswered, and flagged questions.

## Scoring and Results Posting

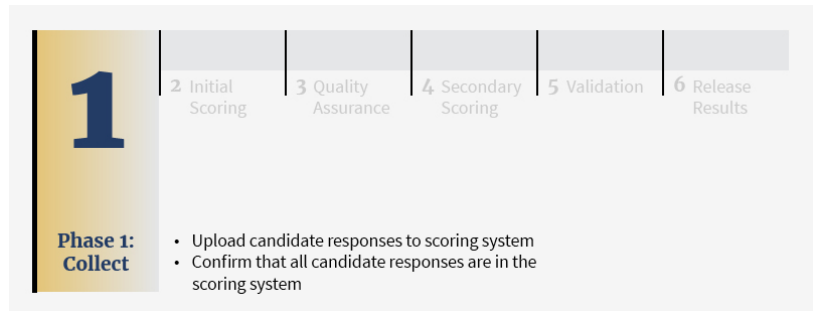

Results for the Certifying Exam are posted approximately one month after the exam. All ABR computer-based exams go through six scoring phases. After your exam administration, you can check the website for real-time updates on the current phase of the scoring process.

Scoring for all ABR exams is criterion referenced, meaning that a passing standard is established in advance of the exam. The exam is not graded on a curve and there is no set percentage of failures.

The Certifying Exam is scored as pass or fail, and feedback will be provided. The one required module and the three elective modules all must be passed as a group. If the result is “fail,” you must retake the entire exam.

After the exam has been scored, your results will be posted in [myABR](#). Your program director and chair will receive aggregated exam performance data to help in evaluating and improving their training program.

Please refer to [Exam Scoring and Results](#) for more information.

## Computer-based Remote Exam FAQs

### 1. How do you know it is me taking the remote exam?

You will provide picture identification and a selfie prior to the exam. When entering the exam, a selfie is captured and compared with the information provided to confirm your identity.

### 2. May I take the remote exam on a laptop or tablet?

ABR remote exams may be taken on a desktop computer or laptop with a Windows or Mac operating system. You may not use a tablet, iPad, Kindle, or other mobile device.

### 3. May I use an auxiliary monitor?

Yes. The monitor must be connected to the computer being used to take the exam and not a secondary device. If you choose to use an auxiliary monitor, you will need to disable any other monitors connected to your computer. Only one monitor is allowed during the exam.

### 4. Where should I take the remote exam?

Please refer to the information in [Location Requirements](#) for details on the location you choose for your exam.

### 5. What electronic devices are allowed?

No electronic devices other than the computer being used to test, one mobile device for contacting the ABR, and a webcam are allowed in the room. This includes signaling devices such as pagers and alarms, cameras or other photographic or duplicating devices (other than the webcam and cell phone), personal digital assistants (PDAs), recording devices or other hand-held computers, tablets, and digital music players (e.g., iPod).

### 6. May I use books or notes during the remote exam?

No. Please refer to [Location Requirements](#) for details.

### 7. May I use additional software during the remote exam?

No. You must close all other programs or windows on your computer before you begin the exam.

### 8. Will I be required to do a room scan of the location where I am taking my exam?

You may be asked to perform a routine scan of your workspace during the exam. ABR staff will provide instructions if this procedure is needed.

### 9. What if I need to use the restroom during the remote exam?

You can select the Break function in the exam software. Any exam content you have seen prior to your break will not be available to answer after you return, so you should answer all items that you have seen before taking a break.

### 10. What if I need to leave the room during the remote exam?

You may not exit the camera view or use a cell phone or other electronic devices during the exam unless there is a failure in connectivity or you are on a break. You may exit the webcam view and use your cell phone or other electronic devices during the intermission.

**11. What if I need extra time to take the remote exam?**

Accommodations are available to candidates needing more time to take the exam. Requests for accommodations must be made in advance of the exam date. Please refer to [Exam Accommodations](#) for more information.

**12. Is someone watching me while I take the remote exam?**

Yes. The exam software will continuously record both you and your testing environment through the webcam feed. Exams will be viewed live and recordings reviewed after the exam by ABR staff.

**13. How do I access the remote exam on exam day?**

Please refer to [Starting Your Exam Day](#) for more information about how to start your exam.

**14. Do I need to schedule my exam time in advance?**

Yes. You will need to complete the exam registration process to secure a slot for a specific exam event. Please see [Exam Registration](#) for more information.

**15. How do I know that my privacy is protected?**

The ABR and its partners use encryption technology that ensures your information is secure when it leaves your computer and is stored in the cloud. All information collected during the exam is done securely. The online proctored exam information is stored in a fully secure environment.

**16. Will the ABR ever give out my personal information?**

Never. The ABR does not share personally identifying attributes of any user.

**17. Who can view exam recordings?**

Only the ABR can unlock and view the exam recordings. Data is secured using an encryption technology that ensures that your exam data is safe from hacking attempts. Recordings are typically retained for up to 10 days before they are deleted.

**18. May I talk to other people about the exam?**

No talking or any other form of communication is permitted once your exam has begun. Additionally, you are prohibited from reproducing, communicating, or transmitting any exam content in any form for any purpose. Copying or communicating content is a violation of the [ABR Exam Integrity Policy](#).
