

## **Professional Standing Policy for Applicants/Candidates**

### **Policy:**

#### Required Licensure

For certification by the ABR, the physician must hold either:

1. a current, full and unrestricted license to practice medicine in at least one jurisdiction in the United States, its territories or Canada, or
2. in jurisdictions that provide for a “training license” under the supervision of the institution’s training program, the physician must hold such license continuously and without restriction.

Any restrictions placed on any medical license or training license must be reported to the ABR by the physician within 60 days of their imposition.

Please note: This policy is subject to amendment from time to time. Candidates and diplomates are advised to check the ABR website periodically for the most current version.
