

OLA NucRad Writing Preferences

- ***“Localization”*** instead of “uptake” when applicable.
- ***“Clearance”*** instead of “emptying” when applicable.
- ***“Dosage”*** or ***“administration”*** instead of “dose”
- ***“Undergoes”*** instead of “has”
- ***“Administered”*** vs “used”
- ***“Morphine sulfate”*** vs just “morphine”
- Avoid ***“asymptomatic”***
- Address why distractors are incorrect whenever possible.
- Phasing out OctreoScan but okay for now.
- As a convention, rationales should mention the images presented.
- for convention, RAO/ANT/LAO side by side is a good presentation for images.
